

RRC Record on Command™

interactive telesis:

More than talk: Proven Success.
More than technology: Solid Solutions.

No Reservations ... No Operator ... No Hassles.

With Record-on-Command, You're Always Ready To Go!

Interactive Telesis' Record-on-Demand service offers instant on-demand conference recording. Available anytime you want, Record-on-Demand is the easiest and fastest way to record a conference with your business associates, clients, or employees.

Record-on-Command was designed with simplicity in mind. It's convenient, flexible and never requires a third party to set up. Best of all, you have the ability to record a conference without the need for pass codes.

Complete Control And Security At Your Fingertips

Record-on-Command is an easy-to-use service that provides the highest degree of meeting control and security.

Simple touch-tone commands give the chairperson access to each recording, and best of all, there's no need to call anyone to record your meeting.

Easy Access Audio Playback And Retrieval

Record-on-Command audio recordings are accessible via touchtone phone, or through multimedia playback via web interface.

You may also download the audio files in MP3 file format.

Use Interactive Telesis' Record-on-Command Service for:

- Urgent Last Minute Meetings
- Emergency Notifications
- Management Meetings
- Training
- Private Conferences

Record-on Command Service Deployment is Simple. Two Service Offerings Available:

- Customer premise solution (hardware resides at customer site)
- Interactive Telesis Hosted Solution (Customer simply dials in to our hosted Record-on-Command platform)
